RAJIV GUPTA

Frontend Developer

Passionate about building dynamic and responsive web applications using Frontend technology – HTML5, CSS3, Bootstrap, JavaScript, React.js, DOM, RESTful API, and others. Proficient in front-end development, with a strong focus on creating seamless user experiences and scalable solutions. Skilled in translating design mockups into functional interfaces, optimizing application performance, and implementing RESTful APIs. Ready to contribute expertise and innovation to create impactful digital experiences. 💼 #Frontend Developer…………

Education

● **Bachelor of Information Technology**

CIHE - Higher Education

North Sydney, Australia

Frontend Tech Skills

- React: Frontend
- JavaScript: Language
- HTML5: Markup
- CSS3: Styling
- Git: Version Control
- Responsive: Design
- Deployment: Hosting-vercel-netlfy...
- Debugging: Troubleshooting
- Scalability: Growth
- Performance: Optimization
- Collaboration: Teamwork
- Agile: Methodology
- UX/UI: Experience
- Problem-solving: Innovation
- Figma: designing
- DOM: inspect
- Photoshop : designing

Backend Basic Skills

- MongoDB: Database
- Express: Middleware
- Node.js: Backend
- RESTful: API
- Redux: State
- Testing: Quality

Soft Skills

- Communication
- Problem Solving
- Critical thinking
- Organized
- Teamwork

Experience

● **Frontend Developer**   June 2023 - Oct 2020

WebTech Nepal -Kathmandu -Remote - 3 year experience

-Developed responsive web applications using HTML, CSS, and JavaScript, ensuring seamless user experiences across various devices.
-Collaborated closely with UI/UX designers to implement intuitive and visually appealing interfaces, resulting in a 20% increase in user engagement.
-Utilized ReactJS to build dynamic and interactive user interfaces, reducing page load times by 30%.
-Integrated RESTful APIs to fetch and display real-time data, enhancing the overall functionality of the applications.
-Implemented and maintained code quality standards, leading to a 25% reduction in bugs and improved overall system stability.
-Translated design mockups and wireframes into clean, efficient, and maintainable code, ensuring pixel-perfect UI implementation.
-Optimized website performance by leveraging techniques such as code splitting, lazy loading, and browser caching, resulting in a 40% decrease in page load times.
-Collaborated with backend developers to define API specifications and data structures, facilitating smooth frontend-backend integration.
-Actively participated in code reviews, providing constructive feedback to peers and ensuring coding best practices were followed.
-Led a project to refactor and modernize an existing application's frontend, resulting in improved code maintainability and a 20% reduction in technical debt.
-Actively participated in daily stand-ups, sprint planning, and retrospective meetings to ensure efficient project execution.
-Contributed to the optimization of application performance, resulting in a 20% increase in page load speed.
-Collaborated with UI/UX designers to deliver visually appealing and intuitive user interfaces
-Utilized Git for version control and collaborated with team members on code reviews. .

● **Frontend Developer**   Aug 2020 - Sep 2021

Asian Global Agencies - 11 month experiences -remote

- Collaborated with designers and backend developers to implement user interfaces for web applications, ensuring seamless integration of design and functionality.
- Developed responsive and cross-browser compatible UI components using HTML, CSS, and JavaScript, resulting in improved user experiences across various devices.
- Implemented frontend logic and interaction using React.js, utilizing state management with Redux to create dynamic and interactive user interfaces.
- Utilized RESTful APIs to retrieve and display data, contributing to the seamless flow of information between frontend and backend systems.
- Conducted thorough testing and debugging to identify and resolve frontend issues, ensuring optimal performance and a bug-free user experience.
- Collaborated with the QA team to perform comprehensive testing and resolve any reported issues before deployment.
- Actively participated in Agile development processes, including daily stand-ups, sprint planning, and retrospectives.
